

Sprint Backlog Grooming Meeting:

Attendees: Emre, Juan, Carlos, Henry, David

Start time: 9:31 PM

End time: 10:09 PM

Upcoming User Stories Reviewed:

The following stories were refined and prioritized by the product owner for potential inclusion in the upcoming sprint:

- **User Story 101:** Implement login authentication – 10 pts
- **User Story 102:** Setup DB schema for user profile – 10 pts
- **User Story 103:** Add unit test for login authentication/signup – 5 pts

Clarifications Discussed:

- **User Story 101:**
 - Defined clear acceptance criteria for login, including error handling, password encryption, and session management.
- **User Story 102:**
 - Agreed on initial table structure, indexing strategy, and relationships between user tables and other database components.
- **User Story 103:**
 - Confirmed test coverage expectations, including CI pipeline integration with GitHub Actions.

Definition of Ready (DoR) Compliance:

All three user stories were reviewed and updated with:

- Detailed acceptance criteria.
- Mockups and workflow diagrams where applicable.
- Contextual documentation for implementation.

Future Refinement Needs:

The team and product owner identified potential backlog stories for the next two sprints, such as "User Profile Editing" and "Two-Factor Authentication," which require early grooming in the next refinement session.

Sprint Assignment Decisions*Team Members & Commitments:***Juan Carlos Gomez**

- Lead: User Story 101 – Implement login authentication
- Pairing with Emre

Carlos Diaz

- Lead: User Story 102 – Setup DB schema for user profile

- Pairing with Henry

Emre Akilli

- Pair/Support: User Story 101 – Implement login authentication

David Palacio

- Lead: User Story 103 – Add unit tests for login authentication/signup
- Responsible for CI integration

Henry Perez

- Pair/Support: User Story 102 – Setup DB schema for user profile (focus on indexing and optimizations)
