

Sprint Review Meeting Minutes

Attendees: Emre, Juan, David, Carlos, Henry

Start time: 9:54 pm

End time: 10:47 pm

After a show and tell presentation, the implementation of the following user stories was accepted by the product owners:

- User Story 1: Error Message Alerts (Emre, Juan) (10 Points)
 - As a homeowner, I want clear error messages when something fails, so I understand what went wrong.
- User Story 2: Back to Top Button (Carlos, Henry, David) (15 Points)
 - As a homeowner, I want a "Back to Top" button so I can quickly scroll to the top of long dashboard pages.

Story Points:

- Emre (5)
- Juan (5)
- David (5)
- Carlos (5)
- Henry (5)

The following ones were rejected and moved back to the product backlog to be assigned to a future sprint at a future Spring Planning meeting.

- User Story: Loading Spinner
 - As a homeowner, I want to see a loading spinner while the page is loading, so I know the system is working and not frozen.
- User Story: Clear Button
 - As a homeowner, I want a clear button on input fields, so that I can quickly erase anything I typed by mistake.
