

## **Daily Scrum Meeting Minutes:**

Attendees: Emre, Juan, Carlos, David, Henry

Start time: 8:34 pm

End time: 9:03 pm

Emre:

- How many hours did I work since the last meeting?
  - 1
- What was done since the last scrum meeting?
  - Managing tasks that group members are doing
- What is planned to be done until the next scrum meeting?
  - Going over progress of said tasks
- What are the hurdles?
  - A lot of classmates are taking 5+ classes including myself

Juan:

- How many hours did I work since the last meeting?
  - 1
- What was done since the last scrum meeting?
  - Monitoring other's progress. Asynchronously
- What is planned to be done until the next scrum meeting?
  - Updated GitHub group repository rules.
- What are the hurdles?
  - Gauging groups' scope of knowledge to address potential assignment restructuring to not get behind deadlines.

Carlos:

- How many hours did I work since the last meeting?
  - 1
- What was done since the last scrum meeting?
  - Continued researching schema design
- What is planned to be done until the next scrum meeting?
  - Try to finalize a complete schema that can use dummy data
- What are the hurdles?
  - Finding the right information I need

David:

- How many hours did I work since the last meeting?
  - 1
- What was done since the last scrum meeting?
  - Read some documentation
- What is planned to be done until the next scrum meeting?
  - Create scenarios for users.
- What are the hurdles?
  - Other courses

Henry:

- How many hours did I work since the last meeting?
  - 1
- What was done since the last scrum meeting?
  - Look project dependencies.
  - Research a test database.
  - Opened a GitHub.
- What is planned to be done until the next scrum meeting?
  - Research a sample API route.
  - Look for test IoT data file.
  - Look how to make a basic dashboard page.
- What are the hurdles?
  - Need clarity on AWS free tier limits.
  - Limited time to test both desktop and dashboards.
