Sprint Review Meeting Minutes

Attendees: Emre, Juan, David, Carlos, Henry
Start time: 10:06 pm
End time: 10:49 pm

After a show and tell presentation, the implementation of the following user stories was accepted by the product owners:

- User Story 1: Dark Mode and Accessibility Settings (**Emre**, **Juan**) (10 Points)
    - *As a homeowner*, I want to toggle dark mode and adjust accessibility settings so that I can comfortably view my energy data in different environments and for my personal needs.

- User Story 2: Customizable Dashboard Widgets (**Carlos**, **David, Henry**) (15 Points)
    - *As a homeowner*, I want to customize my dashboard with different widgets such as view current usage, historical trends, and cost estimates.

Story Points:

- Emre (5)
- Juan (5)
- David (5)
- Carlos (5)
- Henry (5)

The following ones were rejected and moved back to the product backlog to be assigned to a future sprint at a future Spring Planning meeting.

- User Story: Basic Alerts
    - *As a homeowner*, I want to receive a **basic alert** if my usage goes above a set threshold, so that I can take action to reduce consumption.

- User Story: Basic Device or Room Categorization
    - *As a homeowner*, I want to **tag usage by room or device**, so that I can start to understand where my energy is being used the most.
